# E3 Coaching Workshop

---

## Overview

Have you ever been told to do something, but not told why, what or how?

Create now offers a highly interactive, face to face workshop experience designed to clarify what coaching looks like within your organization. It highlights three elements that help cement coaching into the culture of your organization.

**Engage** looks at what drives your coaching...consider it the “why”.

**Equip** defines best practices and “what” makes coaching effective.

**Empower** shows “how” this fits into your day to day.

### The workshop...

- mixes content, discussion, exercises with practical application.
- ranges from 3 hours to six hours. The longer it is, the more practice there is.
- is for any manager and leader – Corporate, Regional, Area and Front Line.
- is ideally interactive with 25-30 participants. However, scale of workshop is your call .

**To schedule a workshop, contact Kurt Reinhart.
